

Welcome to the Infiniz Clinic Ms. Jill Benz.

1. Please tell us about yourself, where are you from and what do you do as the international model ?

I'm Jill, I'm from Germany and working as a Model. As a model you travel a lot and your skin gets affected by lots of different factors. Having your make up done everyday clog the pores and doesn't give your skin any chance to breathe. As a models skin is the most important part of your body as it reflects your inner health the more important it is for me to keep it clean and healthy.

2. What is your first impression when you visit our clinic ?

The clinic is clean, for me it's the most important criteria while choosing new spots. The staff is friendly and is taking care of your well-being during your stay. And what I like most is its privacy.

3. Do you think that the fine skin treatment is significant for your career ?

Definitely, yes, it is! When putting make up on and taking it off every day my skin gets sensitive and cracked. That's why I have to be aware of the visible aging process that comes along with it. So I try to keep it clean and moisturized.

4. Have you every experienced the skin boost before and what is different of Infiniz Clinic's treatment and the others ?

To be honest by now I noticed that my skincare treatments are kind of "out-of-time". I visit a small cosmetic salon regularly because I like to support the locals and as I mentioned before I don't like the big clinics where a lot of people 'hang around'. But now I realize the better effects on my skin due to the contemporary improvements of technology. The treatment itself was really soft and gentle to my skin. First I experienced the *Pristine*, a Diamond Peel which is working in dual mechanisms: the ablation of outer layers of the epidermis and the waste disposal which is done through vaccum techniques. The positive side effects are the stimulated blood flow which causes a rebuilding of collagen and elastin and the fact that it's encouraging your lymphatic activity. This were preparations for the *Collagen Booster*, a procedure for non surgical lifting results. I have to confess that I was close to fall asleep during the skin treatment. I really enjoyed it like a good massage or anything that makes you feel relaxed.

5. Can you instantly notice the better change in your face ? What is it ?

My skin became more hydrated. As my stay was first of all a vacation trip, my skin became dry and cracked cause of all the salt of the sea and the chlorine content of the pools and anything what brings a good holiday with it. Using a lot sunscreen everyday clogged my pores. So in the end I could still notice days after the treatment that my skin turned more shiny and glowy.

6. Finally, would you recommend us to others for the perfect skin solutions ?

Yes, I do. Actually when I gonna be back in Bangkok that's definitely the place for me to go again! But for now, I try to find a place as good as this one in my hometown because I cannot travel every month to Thailand.
;-)
